- Highlight: **Sign Making Channelume Material, Channelume Material 30mm, 30mm Aluminum Channel Letter Coil**

## Product Description

### Aluminum Sign Making Material Letterform Edge LED Light Source Width For 3-14cm

#### Product Description:

One of the standout features of the Trimless Letterform coil is its double PVC edging, which adds an extra layer of protection and aesthetic appeal to your signage. This sign making material is perfect for businesses and organizations looking for a sleek and professional look.

The Trimless Letterform coil is also equipped with LED lighting, which provides bright and energy-efficient illumination for your signage. Whether you want to draw attention to your storefront or highlight your company logo, the LED lighting ensures that your message is visible day or night.

The Trimless Letterform coil comes in a variety of shapes, but the letterform shape is particularly popular due to its versatility and readability. The letterform shape allows you to spell out any message or name in a clear and concise manner, making it perfect for branding and advertising purposes.

The Trimless Letterform coil is available in widths ranging from 3 to 14cm, allowing you to customize the size of your signage to fit your specific needs. The flexibility in size makes it easy to create signage that is both visually appealing and easy to read from a distance. Overall, the Trimless Letterform coil is a top-of-the-line product that is perfect for businesses and organizations looking to create high-quality and professional signage. Its double PVC edging, sign making material, and LED lighting make it a standout product in the market, and its letterform shape and customizable width options make it a versatile and adaptable solution for any signage needs.

#### Features:

1:Exclusivity-The exclusivity of this product provides the ability to dramatically increase profit margins compared to traditional, commoditized channel letters.

2:Unique design— Trimless LetterForm delivers a highly customizable appearance and the ability to fabricate unique, high-end designs such as front lit, side lit, edge lit, halo, lit, or combinations of various illumination techniques.

3:Longer Lasting Signage -Not only does our adhesive-sealed Trimless technology achieve a cleaner, more contemporary look,It replaces unsightly plastic decorative caps to produce more durable letters that will not have fading, cracking conditions

4:More flexible material – The polymer ridge on LetterForm makes that material more flexible for smaller, more challenging designs.

5:A Variety of Sizes-You can choose 3cm-14cm width

6:Simple Installation-it's easy to making channel letters.we can provide the making channel letter video about it .
